

## Insurance and Compensation Scheme Annual report for 2011.

Insurance:- there is still a steady increase in requests from Members for proof of insurance. This is required where Members are having beekeeping promotional and/or sales stands at events on municipal properties and is also requested by some landowners where hives of bees are sited on their ground.

Compensation Scheme:- one claim for vandalism has been settled for the 2011 season there were no other claims. The Members apiary was vandalised by pushing over the hives using up-rooted saplings resulting in the destruction of some equipment, the total loss of one colony and the others suffered from exposure to the weather. The owner has moved his hives to another site for safety
